File No. 106365

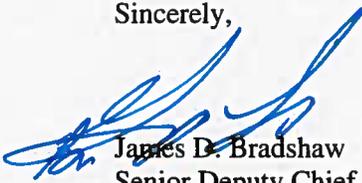

Dear Applicant:

The staff has under consideration the above-captioned modification application for a minor change to a licensed facility.

An engineering study has revealed that the proposed transmitter site specified in the application fails to meet the minimum spacing requirements of 47 C.F.R. § 73.807 in relation to first-adjacent channel license for WJCT-FM, BMLD-2011093ARB, in Jacksonville, FL. The minimum required separation is 100 kilometers, whereas the separation proposed is 99.4 kilometers. The application fails to address this defect.

Accordingly, in light of the above, application file number 106365 is unacceptable for filing and IS **HEREBY DISMISSED**. This action is taken pursuant to 47 C.F.R. § 0.283.

Sincerely,

James D. Bradshaw
