ATSC 3.0 Deployment Plan

Oregon Public Broadcasting (“OPB”), the licensee of television station KOPB-TV, Portland, Oregon, herein proposes to commence broadcasting an ATSC 3.0 simulcast of KOPB-TV’s PBS-affiliated primary channel. This ATSC 3.0 simulcast would be a guest stream hosted by KPDX(TV), Vancouver, Washington (Facility ID 35460), licensed to KPTV-KPDX Broadcasting Corporation (“Meredith”). KOPB-TV will continue to broadcast its primary channel and multicast channels in ATSC 1.0 format in accordance with KOPB-TV’s currently licensed parameters.

OPB and Meredith have entered into a hosting agreement, in accordance with Section 73.3801 of the Commission’s rules, to govern this hosting arrangement.

OPB intends to enter into additional hosting agreements regarding (i) an additional KOPB-TV stream that would be simulcast in ATSC 3.0 and (ii) an ATSC 1.0 stream that would be hosted on KOPB-TV. OPB will amend this application upon entering into these agreements.
