

## WABI TV - Other Broadcast Efforts

On December 28, 2019, from 10:00 AM to 11:00 AM, due to required technical maintenance, the station did not air the following programs: LUCKY DOG and HENRY FORD'S INNOVATION NATION. Though WABI was able to make these programs good within the seven day period (it did so on Saturday, January 4 at 6:00 AM and 6:30 AM, respectively), this 2019 report does not allow us to reflect these make goods, and as a result we are not including them in our titles. Still, WABI achieved the three hour average/week over six months.
