III. Recruitment Initiatives During the Reporting Period

1) Establishment of internship program designed to assist individuals to acquire skills needed for broadcast employment. Hometown Broadcasting stations are committed to providing quality internships and opportunities to develop talent and interest in our industry to high school/college and trade school students for course credit. During this report period, on October 18, 2018, over a dozen students with the Burgin High School, spent the day with Joe Mathis learning how radio commercials are produced as he helped them bring to life their public service scripts they wrote. The students while here were able to job shadow the operations of the stations. On March 12, 2019, Mica Brown, a Boyle County Senior with an interest in communications, job shadowed, the Charlie Perry Show. Hometown Broadcasting's internship program has been established for a number of years and continues on a year round basis. We accept all students who request the opportunity to intern and/or job shadow. (2) All radio stations broadcast announcements inviting recruitment sources to request job vacancy notices 4 to 6 times a month. The same information is posted on the station's website. (3) Hometown Broadcasting participated in the Mercer County Senior High School Career Fair on April 20, 2018. Joe Mathis, Announcer and Sportscaster, and Johnnie Slone, Sales Representative and Sportscaster, meet with students as part of the Career Fair while broadcasting live from 8:30 a.m. to 10 a.m. They were able answer questions about careers in broadcasting while also allowing students to actually be part of a live broadcast demonstration.
