

Technical Exhibit

Minor Modification of Licensed Facility Application

This application corrects the ASRN associated with the tower that KMVS is located on. This does not constitute a site move as there is no change in the tower location of KMVS. The de minimis changes resulting from this ASRN correction will not affect any of the licensed technical parameters including the directional antenna and the 60 dBu contour coverage. It will not cause prohibited overlap to authorized facilities in accordance with Sections 73.509 and 73.525. There will be no change in KMVS's environmental and RFR compliance.

	Licensed	Modification
Channel / Class	207 A	207 A
Geographical Coordinates	37 33 43.8	37 33 44.0
