

Children's Programming Preemption Report

On November 30, 2019, the automation system for WCBZ channel 22.5 had a failure and did not broadcast the program Awesome Adventures or Animal Science at their scheduled broadcast times of 8:00 AM and 8:30 AM respectively.

The error was corrected and the remainder of our children's programming lineup on channel 22.5 was broadcast as scheduled. Programs on other multicast channels were unaffected.

The missed episodes of Awesome Adventures and Animal Science were broadcast at 11:00 AM and 11:30 AM respectively on November 30, 2019 on channel 22.5.

Program guide information was not transmitted to guide publishers because they could not have disseminated the data in time before the programs were broadcast.

Respectfully submitted,

A handwritten signature in dark ink, appearing to read 'Mark Hiner', written in a cursive style.

Mark Hiner
