

Response to Certifications

Discontinued Operations.

WJCF is currently silent but has not been silent for any consecutive 12-month period..

Adherence to Minimum Operating Schedule and Silent Station

WJCF adhered to the minimum operating schedule but is currently operating under Remain Silent Authority (File number BLSTA -20200205AAN) which was granted 03/06/2020 and has an expiration date of 09/02/2020.

WJCF is currently silent because the station and transmitter site was located in a church that has closed.. All churches in Indiana have been closed under an order of the Governor because of the coronavirus outbreak., and, as a result, the station has been required to cease operation

WJCF has obtained a new proposed location within the city of Muncie. The transmitter has been moved and work on the room for the transmitter is ongoing. The contractor assisting with the WJCF move to the new location has been hit with the coronavirus which has slowed the move to the new site. The Consulting Engineering firm Munn Reese has indicated that the station can become a single tower 600 watt daytime facility if the Commission adopts new proposed AM Rules.

However, It is anticipated that the station will file for an STA to return to the air within a month.
