FACILITY NUMBER 57081

Question 3 Section III

Local Public File.

Licensee certifies that the documentation, required by 47 C.F.R Sections 73.3526 or 73.3527, as applicable, has been placed in the station's public inspection file at the appropriate times.

We have maintained our public file in a timely manner for the life of the license except for 2 times concerning placing the issues online under the new online method. In 2018 we failed to put the issues for the first and second quarter in the file by the 10th of the following quarter. We noticed the oversight and corrected the error by the 28th day of the third quarter.

We also placed the issues online late for the last quarter of 2018 not as an oversight but that the FCC website was down during the time they should have been posted.

A handwritten signature in black ink, appearing to read "Bill Powell", is written over a circular stamp.
