

### **Explanation of Late-Filed Application**

WTVP(TV), Peoria, Illinois, began broadcasting from its full-power post-repack facilities (as described in LMS File No. 28050) on March 13, 2020. Due to an oversight, the station was not able to file the instant application for a license to cover its repack construction permit within ten days of March 13, 2020.
