**RE: WIAC 740 AM**

TO WHOM IT MAY CONCERN:

I'm writing to inform that all the documentation that was supposed to be in the public file for the radio station WIAC AM has not been submitted on time because of several reasons.

One of the mayor reasons was due to Hurricane Maria that hit the Island on September 2017. Many of the files where done before this period of Hurricane Maria, but since we did not understand the FCC program, we were having many issues uploading the information.

After Hurricane Maria hit the Island, many of our computers were damaged and unable to recover the information we had. Therefore, these files were damaged and unable to upload to the FCC program. It has been very difficult to gather all the information you request from the year 2012. The employees we had working for us and knew all the information are no longer working with us, since the radio station was off air for a year.

Even though it has been challenging uploading the information, because the program is not friendly user, we have managed to upload all the information for the year 2019.

We are very sorry for any inconvenience this situation has caused.

Sincerely,

**ISABELA BROADCASTING, INC.**
