

KCBA Application for Special Temporary Authority
April 23, 2020

Seal Rock Broadcasters, LLC, licensee of KCBA, Salinas, California, hereby requests special temporary authority to operate at reduced power. The extraordinary circumstances requiring reduced power operation are the requirements of the repack transition. In order to complete the transition, KCBA will utilize an interim transmitter at lower power while the old full power transmitter is decommissioned and the new full power transmitter is installed and brought on line. The public interest will be furthered by grant of the STA, because it will permit the station to complete its transition prior to the Commission's May 1, 2020 deadline.
