AMENDMENT

In this amendment, we are increasing the ERP for the proposed facility at Ray Brook, NY for WIRY-FM from 2.3 to 3.1 kW, non-directional. All other parameters remain the same.

For WIRY-FM, a revised comprehensive exhibit will reflect the new ERP as well as a new Canada interference protection exhibit in respect to short-spaced station CBFFM.

All three applications will be amended to update the §307(b) showing to reflect WIRY-FM's increased ERP.

If there are any questions, please let me know. Thank you.
