Sirs:

This is a general R.F. Environmental Statement for the legacy stations owned by MacDonald Garber Broadcasting, WKHQ-FM, WLXV(FM), WLXT(FM), WATT(AM) and WMBN(AM).

All of these stations have experienced numerous license renewal cycles, with the FCC. None of these stations have changed any licensed operation requiring an updated environmental statement. Each of these stations completed an R.F. Environmental study at the time of its original licensing. All of these stations were licensed using paper forms that are a matter of record with the FCC. These paper forms are not available in electronic files found in the LMS or the CDBS databases. As well, these paper files cannot easily be up loaded into the license renewal applications.

By _____
