

Application Purpose

The purpose of this license modification application is to change the WPLV geographic coordinates to agree with the Antenna Structure Registration geographic coordinates. A license modification is permitted according to 73.1690(c)(11):

Correction of geographic coordinates where the change is 3 seconds or fewer in latitude and/or 3 seconds or fewer in longitude, provided there is no physical change in location and no other licensed parameters are changed. The correction of coordinates may not result in any new short spacings or increases in existing short spacings.

The change in coordinates is less than 3 seconds latitude and less than 3 seconds longitude. No physical change in location has occurred and no other licensed parameters have changed. As seen in Exhibit 1-A no short spacings will be created as a result of the changed WPLV coordinates.

WPLV Site Spacing
