WOSE(FM), Coshocton, Ohio
Form 303-S

Public File Certification

The WOSE(FM) online public inspection file is now complete, with all required items, and to the licensee's knowledge, it had timely prepared and placed in its physical public inspection file all documents required to be placed in the file by 47 C.F.R. 73.3527.

However, due to an administrative oversight, licensee failed to timely transfer certain required files from the station's *physical* public file to the station's *online* public file (e.g., the station's issues-programs lists) in connection with the deadline for noncommercial educational radio stations to complete their transition from the physical to the online public inspection file. Immediately upon discovering the oversight in connection with preparation of WOSE(FM)'s renewal application, the licensee began work to upload such documents to the station's online public file. Since discovering the issue, the problem has been corrected and licensee will timely file all subsequent documents to the station's online public file.

Licensee believes that as of the filing of the instant application its online public file is now complete. In making this certification, the licensee has reviewed its public inspection file and has inquired of current employees who are knowledgeable of the contents and maintenance of the licensee's public inspection file. As used in this certification, the phrase "to licensee's knowledge" means licensee's actual knowledge, during the period that the licensee has owned the station, without further investigation other than as described in this exhibit.
