RF Exposure Statement
License Modification
K36AE-D Clarkdale, AZ
Channel 36

The facility proposed in this application will have an effective radiated power (ERP) of 15 kW and a center of radiation 13 meters above ground level (AGL). An analysis of the radiation levels at 2 meters AGL indicates that the RF exposure level is well below the allowable limit for an uncontrolled area and therefore meets the requirements. All other current safeguards related to the site with regard to both workers and the general public will remain in place.
