

W40CU-D, St. Petersburg, FL

Facility ID# 61201

29 May, 2018

## Technical Exhibit

W40CU-D on channel 40 will be displaced at some future date due to it being on a channel above 36 which is designated for wireless services.

Ventana Television Inc. submits this displacement application for W40CU-D to move to channel 32. WTTA-TV channel 32 was relinquished in the spectrum auction and is in the process of sharing channels with WFLA-TV on channel 7. WTTA personnel confirmed a fixed date of June 25, 2018 for cessation of its operation on channel 32. Ventana fully acknowledges that transmission on channel 32 cannot begin until WTTA operations on channel 32 are permanently shut down. See attached waiver request.

The attached TV Study report demonstrates that with WTTA removed from consideration the proposal causes no excessive interference.
