

Online Public Inspection File

Note the following regarding the “No” response to this certification: “Licensee certifies that the documentation required by 47 C.F.R. Section 73.3526 or 73.3527, as applicable, has been uploaded to the station's public inspection file as and when required.”

45 North Media Inc acquired WMJZ-FM, 101.5 MHz, Gaylord, Michigan, on July 31, 2018, pursuant to the grant of an assignment application on Form 314 (“long-form”), File No. BALH-20180212ABB. As set forth in the Instructions to Form 2100, Schedule 303-S, if the station license was assigned during the subject license term pursuant to a “long-form” application on FCC Form 314 or 315 (or any successor application forms that the Commission releases), the renewal applicant’s certifications should cover only the period during which the renewal applicant held the station’s license. Consequently, the certifications of 45 North Media Inc in this renewal application and the associated Form 2100, Schedule 396, relate to the period commencing on July 31, 2018.

The licensee has uploaded to the station’s online public inspection file all the quarterly issues-programs lists during this period in a timely fashion, except for the First Quarter 2019 and Second Quarter 2019 Lists, which were uploaded on July 11, 2019. Materials relating to requests for political time were generally uploaded quarterly, and thus not necessarily in the same month as when the initial request was made.
