WYSJ-CA

License Renewal Application-Form 2100 Schedule 303-S

Minimum Operating Schedule

On January 17, 2020 the station went off the air and has remained silent pursuant to special temporary authorization (LMS File No. 0000096331). Cessation of the station's broadcasts was required so as not to cause interference with downstream dependent stations in the broadcast incentive auction repack. The licensee is currently moving forward toward construction of repack facilities which will enable the station to return to broadcast operations on its repack channel.
