

Additional Children's Programming Information

The instant exhibit is to provide some context to a few Children's Programming Reports (each, a "Report") that might otherwise not be obvious from a brief glance at the Report filing dates visible in LMS or the OPIF.

First, the Reports for multiple quarters were timely filed and subsequently amended to revise the information that was initially provided. Each of these amended Reports includes a note indicating that the initial Report was timely filed and that the Report was subsequently amended. None of the amendments materially affected WBAL-TV's compliance with the E/I performance rules. The relevant quarterly Reports are: First Quarter 2018, Fourth Quarter 2017, Third Quarter 2017, and First Quarter 2014.

Second, the Reports for two quarters (Third Quarter 2013 and Fourth Quarter 2018) appear from their filing dates to have been filed late. Neither was filed late; the filing deadline for each of those Reports occurred during a federal government shutdown which made it impossible to file those Reports by the regular deadline. Each of those two Reports was filed by the extended deadline established by the Media Bureau by Public Notice.
