

Request for Special Temporary Authority

KJZZ Licensee, LLC (“Licensee”), licensee of KJZZ-TV, Salt Lake City, Utah (Facility ID 36607; RF Channel 19), hereby requests Special Temporary Authority, to the extent necessary, to allow KJZZ-TV to simulcast its multicast streams’ ATSC 1.0 signals on different host stations than its primary stream’s ATSC 1.0 simulcast host, in connection with KJZZ-TV’s transition to the ATSC 3.0 broadcast transmission standard.

As indicated in KJZZ-TV’s Form 2100 application (*see* File No. 0000113900), Licensee proposes to (1) commence ATSC 3.0 operations from KJZZ-TV’s current facility and (2) simulcast its primary stream in ATSC 1.0 format on **KUCW(TV), Ogden, Utah** (Facility ID 1136; RF Channel 35), licensed to Nexstar Broadcasting, Inc., pursuant to a written simulcast agreement.ktvx

To ensure that the transition to ATSC 3.0 will not result in any loss of over-the-air programming to viewers, Licensee hereby identifies additional host stations licensed in the Salt Lake City, Utah market that it proposes to use to simulcast the programming currently airing on KJZZ-TV’s multicast streams in ATSC 1.0 format:

- (1) Commonly controlled **KUTV(TV), Salt Lake City, Utah** (Facility ID 35823; RF Channel 34) will simulcast KJZZ-TV’s *Comet TV* and *DABL* streams.
- (2) **KTVX(TV), Salt Lake City, Utah** (Facility ID 68889; RF Channel 30), licensed to Nexstar Broadcasting, Inc., will simulcast KJZZ-TV’s *TBD* and *Charge!* streams pursuant to a written simulcast agreement.

The PSIP virtual channels for each of KJZZ-TV’s program streams will remain unchanged. Accordingly, Licensee proposes that KJZZ-TV’s streams will be hosted in ATSC 1.0 as follows:

| Network | RF Channel of 1.0 Host | PSIP Virtual Channel (No Change) |
|-----------------------|-------------------------------|---|
| Primary (Independent) | 35 | 14.1 |
| Comet TV | 34 | 14.2 |
| TBD | 30 | 14.3 |
| Charge! | 30 | 14.4 |
| DABL | 34 | 14.5 |

Licensee provided notice to the relevant MVPDs of its proposed multicast ATSC 1.0 signal relocations when it provided the requisite 120-day notice regarding relocation of KJZZ-TV's primary stream ATSC 1.0 signal. During the 30 days leading up to the proposed transition date, Licensee is airing consumer notices beyond what is required under the FCC's rules and providing additional notice on KJZZ-TV's website.

To the extent necessary, Licensee respectfully requests Special Temporary Authority to relocate KJZZ-TV's multicast programming streams' ATSC 1.0 signals in accordance with the simulcast arrangements described herein. Licensee also respectfully requests that the virtual channel mapping for KJZZ-TV, as noted above, appear on any KJZZ-TV licenses granted in connection with KJZZ-TV's ATSC 3.0 application and this STA request. Grant of this request will serve the public interest, as it will advance the Commission's ATSC 3.0 policy goals while preserving KJZZ-TV's ability to air each of its programming streams in the ATSC 1.0 format to ensure that all over-the-air viewers can continue to receive the programming currently available to them.
