

## **Request for Special Temporary Authority**

HC2 Broadcasting License Inc. (“Licensee”) respectfully requests Special Temporary Authority (“STA”) to remain silent while it repairs its permanent broadcast facility for this Low Power Television (“LPTV”) station. The Licensee is working diligently to facilitate and resolve equipment issues related to the transmitter. The FCC has a history of granting such requests, particularly where, as here, the request is supported by good cause and granting it would further the public interest.<sup>1</sup>

Unique circumstances support this request. First, Licensee is operating in a resource-constrained environment due to the ongoing 600 MHz Incentive Auction repacking process. Station owners seeking to build new broadcast facilities currently have access to far fewer resources than they would have otherwise, a factor that the FCC and its bureaus acknowledged could become an issue when designing the repacking process to facilitate this “once-in-lifetime opportunity to expand the benefits of mobile wireless coverage.”<sup>2</sup>

Moreover, granting this request would not implicate Section 312(g) of the Act, which generally limits silent station authorizations to 12 months.<sup>3</sup> In contrast, the STA requested here would be for a period of up to six months.

For these reasons, the Media Bureau should expeditiously grant Licensee’s request for an STA to remain silent while it repairs its permanent broadcast facility.
