

**Justification to Extend STA for W27ST-D (W42AX-D)**

The instant request seeks continued authorization to operate temporarily on channel 27 during the pendency of the DTS application for WUNW in File No. [0000113389](#). An STA was first granted for this operation in LMS File No. [0000068739](#), and no operating parameters have changed since that time.
