Re: WLLA - TV

Mr. Warmus,

Thank you for your business and for the opportunity to serve you. We thought it important to share what we are continuing to do to keep our operations up and running safely during the Coronavirus (COVID-19) outbreak.

Jampro Antennas, Inc. continues to monitor the latest reports from the Centers for Disease Control (CDC) and the World Health Organization (WHO), as well as local health and safety departments. We are taking this outbreak very seriously and feel we have a moral obligation to our customers and employees to do whatever we can to stop the spread of this virus.

Unfortunately, due to the delays in sourcing materials and working with vendors that are either working with skeleton crews or are completely shut down, we are behind in production on all projects.

Currently we are not in the position to provide the estimation of the time delay. However, we will continue to keep you updated of the revised project schedule as soon as we can get back to working under normal conditions.

Kind Regards,

Cyndi Sanderson
Vice President
