

### **Request for Special Temporary Authority**

Flood Communications of Omaha, LLC (“FCO”), licensee of KOHA-LD, Omaha, Nebraska, FCC Facility ID 33144 (the “Station”), hereby requests Special Temporary Authority (“STA”) to operate on Channel 27 at the site specified herein. FCO’s Displacement Application (LMS File No.0000027874), which was granted on June 6, 2018, specifies operation on Channel 27 at a different location. FCO, however, is not ready to commence operation from that site at this time.

Accordingly, FCO is submitting this request for Special Temporary Authority for KOHA-LD to continue to operate on Channel 27.
