

**Application for Renewal of License  
WAZY-FM, Lafayette, IN (Facility No. 68970)**

**EXPLANATION OF NOTICE OF VIOLATION**

On September 17, 2019, the Commission issued a notice of violation (“NOV”) to Star City Broadcasting, LLC (“Star City”) regarding the operation of WAZY-FM, Lafayette, Indiana (Facility No. 68970) (“Station”), alleging violations of Section 73.1560(b) and 73.1400(a)(ii) of the Commission’s rules.

The NOV was issued as a result of an inspection of the Station conducted on May 22, 2019 by an agent from the Enforcement Bureau. The agent cited the Station for violation of Section 73.1560(b) of the Commission’s rules because, at the time of inspection, the Station was calculated as operating with 88.2 percent of its licensed transmitter power output; and for violation of Section 73.1400(a)(ii) of the Commission’s rules because, at the time of inspection, the Station’s Burk Technologies remote control equipment was not functional.

On October 7, 2019, Star City filed a timely Response to the NOV, indicating that immediate corrective actions had been taken following the May 22, 2019 visit, and those corrective actions were completed promptly after they were initiated. The Commission has not taken further action on this matter.
