WIIT(FM), Chicago, IL**

**Online Public Inspection File**

Illinois Institute of Technology, licensee of student-run noncommercial educational radio station WIIT(FM), Chicago, Illinois, reports the following with regard to the timely placement of items into the station's online public inspection file.

Although the WIIT online public inspection file is now complete, two (2) quarterly issues and programs lists were uploaded late to the file during the current license term: specifically, the station discovered that its 4<sup>th</sup> quarter 2018 and 2<sup>nd</sup> quarter 2019 issues and programs lists had been timely completed but not uploaded to the online public file when due; the station has now rectified that omission. In addition, the quarterly issues and programs lists from prior to 2018 were all timely added to the station's paper public inspection file when due, but not transferred to the online public file as of March 2018 due to an oversight. The station has also now moved each of these items into the online public inspection file as required. The station regrets the delay in the appearance of these reports in the online public inspection file, as due to misunderstandings amongst the student volunteers in charge of the station and turnover in the staff advisor position. However, WIIT has already ensured that its online public file is now complete with all required materials and is taking steps to ensure timely postings in the future.
