

Station WOWO(AM)
Facility ID No. 28205
Amendment to License Renewal Application

RENEWAL CERTIFICATIONS– AMENDED DISCLOSURE

Pathfinder Communications Corporation, the licensee of Station WOWO(AM), Fort Wayne, Indiana (FCC Facility ID No. 28205), hereby amends its pending license renewal application to correct the Renewal Certification with respect to Ownership to “Yes”. The original certification was inadvertently omitted due to an LMS processing error.

Station WQYK-FM
Facility ID No. 28619
Amendment to License Renewal Application

ONLINE PUBLIC INSPECTION FILE – AMENDED DISCLOSURE

After conducting an audit of political revenue for 2018 and 2019 for stations in the Tampa market, the licensee discovered that information for certain political candidate and issue buys had been maintained in internal station files but had not been uploaded to the WQYK-FM political file at the time the renewal application was filed. The omitted political records have now been uploaded to the file in material compliance with FCC requirements.

Upon discovery of this discrepancy, the licensee immediately conducted a thorough investigation and internal audit. It was determined that the omission resulted from a misunderstanding on the part of station staff and an inadvertent failure to provide copies of electronic sales information for certain political buys to personnel responsible for maintaining the online political file.

The licensee has now provided additional training for all station managers and staff involved in political sales and maintenance of the political file. In addition, the licensee has (i) prepared and distributed written procedures for station sales managers and administrative personnel to follow to ensure that information regarding political advertising is uploaded to the online file in a timely manner; and (ii) implemented a daily reconciliation process to reaffirm that the appropriate documentation is uploaded in a timely manner.
