

### **New Control Point**

This exhibit is to provide additional control point information for WGAL (Facility ID No. 53930).

WGAL will have a new control point at 700 Coliseum Drive, Winston-Salem, NC 27106. The new control point is becoming effective in late July 2020. Additionally, the Station is still able to be controlled from 1300 Columbia Avenue, Lancaster, PA 17603 and from the transmitter site located at 1320 Tower Road, Hellam Township, PA 17406.

In addition, a password-protected, encrypted VPN communication system permits the licensee's authorized operators to control the Station remotely from virtually any location via remote control software operable on secure devices such as a laptop computer.
