

Character Issues

There are no pending applications in which character issues have been raised or any broadcast application where character issues were left unresolved or were resolved adversely against Applicant or any party to the application. We note, however, that two petitions were filed seeking reconsideration of the Commission's Order and Consent Decree, FCC 20-59, FCC File No. EB-IHD-16-00021748, et al. (Rel. May 22, 2020), which petitions remain pending.
