

# **Extraordinary Circumstances**

WDTB was operating on Channel 29 in Buffalo, NY. CKVP, Fonthill, Ontario, Canada, as part of the repacking, moved from Channel 42 to Channel 29 recently. CKVP is only 39.4 Km away from WDTB and the two stations caused each other interference.

WDTB cannot reduce its power enough to not cause interference to CKVP, so WDTB made application (File No. 0000120384) to move to channel 18 which clears per the attached TV Study. WDTB is also requesting Special Temporary Authority to move to Channel 18 as WDTB waits for Canada to approve the channel change. Once Canada gives its approval, the STA will no longer be needed.

The public will be served by the continuing programming of WDTB. The duration is expected to be less than 6 months.
