ENGINEERING REPORT

W228DF, Orlando, FL, Channel 228D Minor Modification

ENGINEERING STATEMENT

All Section 74.1204 protection requirements are met by non-contour-overlap, including to all second and third adjacent-channel stations.

The antenna pattern results from one Scala CLFM(V) single-bay element aimed at 45 degrees True and a second Scala CLFM(V) single-bay element aimed at 185 degrees True with each element equally fed in power.
