

Compliance with Conditions on Construction Permit

W274CG will rebroadcast WTNS(AM), Coshocton, Ohio, as required by the construction permit.

Because the W274CG antenna is mounted on the WTNS transmitting tower, after completion of the antenna installation, antenna impedance measurements on the AM antenna were made. Since the resistance of the AM antenna had changed by more than 2 percent from the licensed value, an application on FCC Form 302-AM for direct power measurement was submitted to the FCC by Coshocton Broadcasting Company, which is also the licensee of WTNS(AM).
