

**Online Public Inspection File**

The Licensee has certified in the affirmative to the question asking whether the documentation required by 47 C.F.R. § 73.3526 has been uploaded to the station's public inspection file when required. The Licensee submits this explanatory exhibit to address the following circumstances, which may at first appear to, but do not in fact, impact the timeliness of uploads:

- The Third Quarter 2013 and Fourth Quarter 2018 Issues/Programs Reports, Certifications of Compliance with Children's Commercial Limits, and Children's Television Programming Reports were each timely uploaded to the online public inspection file (OPIF) and/or filed once the federal government reopened after shutdowns.
- The Annual DTV Ancillary/Supplementary Services Reports required by 47 C.F.R. § 73.624(g) for the years 2015 and 2017 were timely filed for WESH. However, WESH was not the "lead" station listed in the Reports (rather, commonly owned station KCCI was the "lead" station) and, as such, due to technical issues outside the Licensee's control, these Reports were not automatically imported into WESH's OPIF when reviewed in connection with preparation of the instant license renewal application. The Licensee manually uploaded the two Reports to the OPIF upon discovery of the omission. As of the revision of 47 C.F.R. § 73.624(g)'s reporting requirements in 2018, the station was not required to file Annual DTV Ancillary/Supplementary Services Reports since 2017 because it has offered no feeable services during the relevant time period.

The Licensee respectfully submits that none of the above circumstances impact WESH's overall compliance with the online public inspection file requirements.
