

TECHNICAL STATEMENT
RADIO MULTIPLE OWNERSHIP ANALYSIS

We propose to change the antenna location of our station. A multiple ownership analysis was prepared considering radio stations under present or proposed common ownership, time brokerage or joint sales.ⁱ

Market Study

The community of license of our station is Mesa, AZ, which is in Maricopa County, which is part of the Phoenix, AZ Metro and thus our station is geographically located in this Metro. Our station is designated “home” to the Phoenix, AZ; the number of stations attributable to us in the Phoenix, AZ Metro is not changing by this application.

According to the FCC’s local ownership “tiers,” in a Metro reported by BIA as having 45 or more commercial and noncommercial educational full-power radio stations, a party may have a cognizable interest in up to 8 commercial full-power radio stations, not more than 5 of which are in the same service(AM or FM)ⁱⁱ. This application complies with the multiple ownership rules because only 8 of 62 full-power radio stations (5 FM and 3 AM) will be attributable to us. Please see the BIA FCC Market Report is attached to this exhibit for details.

Interim Contour-Overlap Analysis

Because the principal community of the station and the communities of all commonly-owned or attributable stations with overlapping principal contours with our station are located inside a Metro, an interim contour-overlap analysis is not required.

Respectfully Submitted,

Troy Langham
VP, Technical Regulatory Affairs
Chief Compliance Officer - Public File
iHeartMedia

29 September 2020

ⁱ None of the following stations are attributable by virtue of a time brokerage agreement or joint sales agreement
ⁱⁱ no person or single entity (or entities under common control) may have a cognizable interest in more than 50% of the full-power, commercial and noncommercial radio stations in such market unless the combination of stations comprises not more than one AM and one FM station.
