

W05DH-D ADHERENCE TO OPERATING PARAMETERS

Since the station was acquired by the current licensee on July 18, 2019, W05DH-D has operated pursuant to its licensed terms, with the exception that W05DH-D has been silent since March 22, 2020. Licensee filed a request for Special Temporary Authority (“STA”) to remain silent, which remains pending. See File No. 0000121283. Licensee inadvertently did not submit the STA request until September 8, 2020, and therefore was not operating pursuant to authorized parameters, STA or otherwise, for the period beginning April 21, 2020 (i.e., 30 days after the date that the station went silent). Licensee has taken internal steps to ensure that communications counsel is informed about the station’s operational status on a going-forward basis.
