Online Public Inspection File Certification

WFTV, LLC is the current licensee of WRDQ. On December 17, 2019, the license for WRDQ was transferred to the station's current owner ("CMG") pursuant to a long-form transfer of control application. *See* FCC File No. BTCCDT-20190304ADT. To CMG's knowledge, since ownership of the station was transferred, except as otherwise disclosed herein, WRDQ has timely placed in the station's online public inspection file all documents required to be placed in the file pursuant to 47 C.F.R. § 73.3526 and otherwise has complied with the Commission's public inspection file requirements in all material respects.

CMG notes that because it acquired WRDQ via a long-form transfer of control application, it is not liable for violations of the prior owner. However, out of an abundance of caution, CMG discloses that prior to the transfer the licensee failed to timely upload a few documents to the station's online public inspection file.

CMG requires its stations to comply with all applicable FCC rules, including the rules for the political public file. CMG employees are trained on FCC political public file compliance and CMG has processes in place under which station political public files are reviewed for completeness and timeliness. Nevertheless, while the station has substantially complied with the political public file requirements, a few documents were uploaded to the political public file outside of the CMG requirement that all documents be uploaded within one business day. When late uploads occur, CMG employees are required to review the situation and make any needed corrections to station processes to ensure timely uploads going forward. CMG certifies that it will continue to work with and monitor the political public file for WRDQ to ensure that the station meets the FCC's political public file requirements.

In making this certification, CMG has reviewed the station's public inspection files and has inquired of current employees who are knowledgeable of the contents and maintenance of WRDQ's public inspection file. As used in this certification, the phrase "to licensee's knowledge" means CMG's actual knowledge, during the period that CMG has owned the station, without further investigation other than as described in this exhibit.
