

Technical Statement
Alpha Media Licensee, LLC
WTLZ (Facility ID: 74093)

This Technical Statement and attached exhibits were prepared on behalf of Alpha Media Licensee (“Alpha”), applicant of Station WTLZ, Channel 296A, currently licensed to Saginaw, MI. Alpha was notified by the tower owner that the tower coordinates for ASR 1018173 were incorrect and had been corrected. As a result Alpha needs to correct the coordinates for WTLZ to match the tower coordinates. Since the proposed corrective coordinates are more than 3 seconds from the licensed facility Alpha herein proposes a minor change application to correct the coordinates of WTLZ.
