

WOGX – 1st and 2nd Quarter 2013 Issues and Programs Lists

During a routine review of our stations' Online Public Inspection File ("OPIF"), we observed that WOGX ("Station") had two public file documents that were not populating – the issues programs lists from the first two quarters of 2013. We reviewed internally and confirmed that the Station had timely uploaded both documents. We then reached out to the Media Bureau staff, who noted that there appeared to be a technical glitch associated with the original uploads and that they were unable to restore the documents. Following informal staff guidance, the Station has re-uploaded the originally timely-filed documents.
