Atlanta, GA

SILENT PERIODS AND/OR TECHNICAL STAs DURING LICENSE TERM

New York Spectrum Holding Company, LLC became the licensee of the station in late 2013.

- WAGC-LD operated at low power pursuant to an FCC authorized technical STA from June 13, 2014 to August 11, 2014 due to a transmitter failure.
- WAGC-LD was silent from October 6, 2016 through December 13, 2016 pursuant to an FCC authorized silent STA due to the failure of the amplifier.
- WAGC-LD was silent from January 9, 2019 through February 1, 2019 pursuant to an FCC authorized silent STA due to a loss of its programming source.
- WAGC-LD has been silent since September 12, 2019, pursuant to an FCC authorized silent STA, as extended in March 2019 and then pursuant to a 312(g) waiver which authorized the station to remain silent until February 17, 2021. This silence has been as a result of the FCC's repack process. While working to implement its displacement channel in September 2019, it was ordered off the air by the FCC ordered after a complaint was received that WAGC-LD was causing interference to Class A Station WSCK-CD.
