

## DECLARATION

I, Conner Libera, hereby state as follows:

1. On November 3, 2020, for the second time I went to the tower site identified as ASR 1001786 at the base of the tower.

2. The FM Station on 91.3 MHz remains on the air. I tuned to 91.3 Mhz on my car radio. I can personally confirm that the station is broadcasting. I also again went into the equipment room for the station. The photos of the equipment (equipment rack, transmitter, and computer) taken today are attached. The equipment is operating.

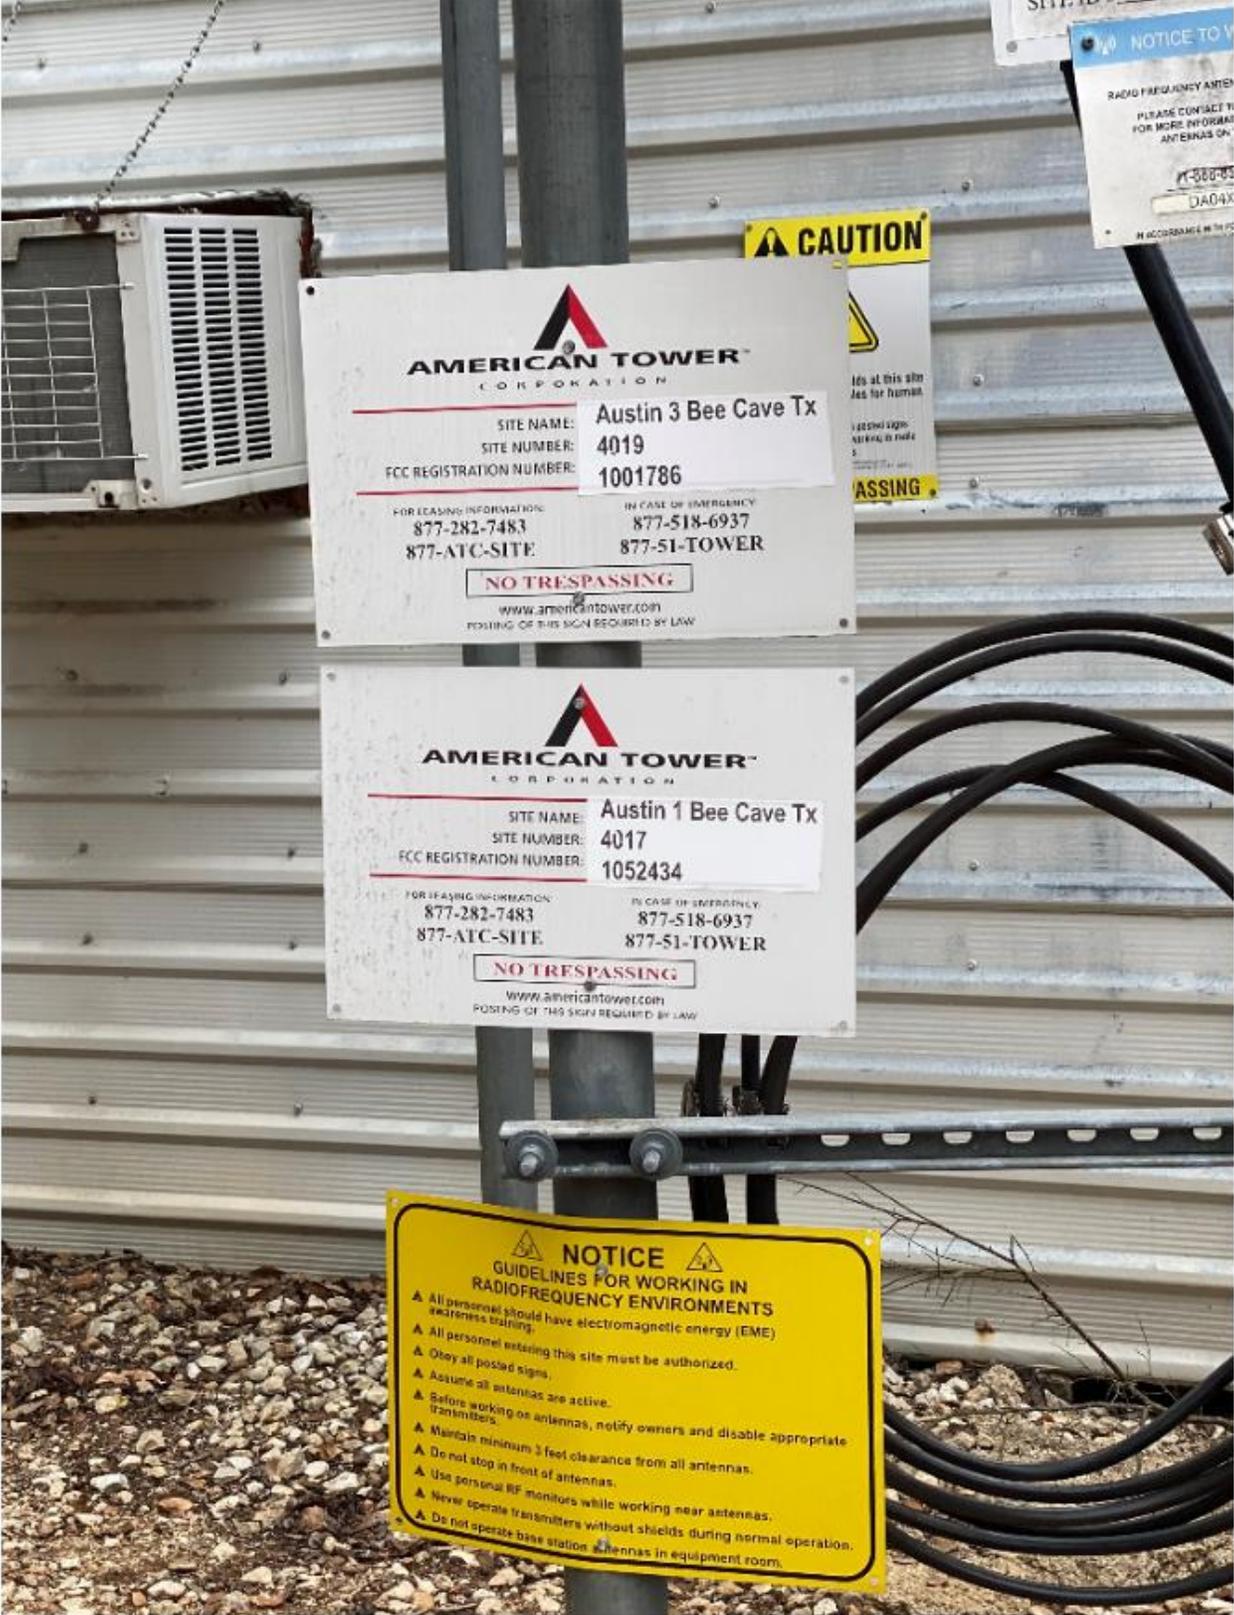

I declare under penalty of perjury that the forgoing is true and correct.

---

**NOTICE**

**GUIDELINES FOR WORKING IN RADIOFREQUENCY ENVIRONMENTS**

- ▲ All personnel should have electromagnetic energy (EME) awareness training.
- ▲ All personnel entering this site must be authorized.
- ▲ Obey all posted signs.
- ▲ Assume all antennas are active.
- ▲ Before working on antennas, notify owners and disable appropriate transmitters.
- ▲ Maintain minimum 3 feet clearance from all antennas.
- ▲ Do not stop in front of antennas.
- ▲ Use personal RF monitors while working near antennas.
- ▲ Never operate transmitters without shields during normal operation.
- ▲ Do not operate base station antennas in equipment room.

**CAUTION**

Labels at this site are for human eyes only. Labels are not to be used as a substitute for proper safety procedures.
