

WEZY-LP seeks an extension of the special temporary authority to operate with its licensed Channel 51 analog facilities with an ERP of 7.5 kilowatts (5% of its licensed ERP of 150 kilowatts) to permit it to continue to provide service without interfering with the 600 MHz services of T Mobile and U. S. Cellular until it can implement the Channel 35 digital displacement facilities authorized by construction permit BDISDTL-20120511AEI.
