

## **ADHERENCE TO MINIMUM OPERATING SCHEDULE – KBEI**

Station KBEI, Brush, Colorado (the “Station”) has been silent for periods of time exceeding 30 days throughout its license period since Educational Communications of Colorado Springs, Inc. (“ECCS”) acquired control of the Station on March 16, 2013.

The Station was already silent when ECCS consummated its acquisition of KBEI on March 16, 2013, due to malfunctioning equipment. ECCS repaired and replaced that equipment and the Station resumed broadcast operations on February 2, 2014.

The Station ceased broadcasting on April 13, 2015 because of a catastrophic antenna and transmission line failure. The equipment was repaired and, where it could not be repaired, it was replaced. The Station resumed broadcasting on December 4, 2015. Since December 4, 2015, and continuing for the past five (5) years, Station KBEI has been continuously operating.
