

WXIA

License Renewal Application Public Inspection File

WXIA endeavors to timely upload documents to the Public Inspection file; however, at the beginning of the current license period the following documents were uploaded on the dates indicated:

EEO Public File Reports

- The 2012 EEO Public File report was uploaded on December 19, 2012
- The 2013 EEO Public File report was uploaded on June 8, 2015
- The 2014 EEO Public File report was uploaded on June 8, 2015
- The 2015 EEO Public File report was uploaded on December 8, 2015

Issues/Programs Lists

- The Q1 2014 report was uploaded on July 10, 2014.
- The Q1 and Q2 2015 reports were uploaded on October 8, 2015

Commercial Limits Certificates, each uploaded on September 15, 2015

- Q2 2013 through Q2 2015.

In the course of reviewing its political file, WXIA determined that due to a change in 2018 in the station's workflow for printing rate and schedule documentation from the station's traffic management system, such documentation no longer included by default the priority code indicating the class of time for each spot. In September 2020, the station re-uploaded any affected orders to add the priority code information.
