

Online Public Inspection File

Licensee requires its stations to comply with all FCC rules, including the rules for the political public file. Licensee employees are trained on FCC political public file compliance and Licensee has instituted a program under which station political public files are reviewed for completeness and timeliness. Nevertheless, while the station has substantially complied with the political public file requirements, due to the volume of political public file materials processed by the station during the election cycle, some documents have been or may have been uploaded to the political public file outside of the Licensee's requirement that all documents be uploaded within one business day. Late uploads can be due to issues such as problems with internet connections, difficulties accessing the FCC's online public file, staffing limitations, or processing errors. When late uploads occur, Licensee employees are required to review the situation and make any needed corrections to station processes to ensure timely uploads going forward.
