

**FCC Form 2100, Schedule 303-S  
K284CI, Denver, CO**

**Silent Station / Rebroadcast Status**

FM Translator Station K284CI has been silent since November 26, 2020. K284CI temporarily suspended broadcasting in connection with the assignment of the K284CI license to Rocky Mountain Public Media, Inc. and the take-over of operations and programming by the new licensee (*see* assignment of license application in FCC File No. BALFT-20201002AAN). The assignment application was granted on November 19, 2020, and the transaction consummated on November 25, 2020. A notification of suspension of operations and request for Silent Special Temporary Authorization was filed for K284CI on November 30, 2020 in FCC File No. 20201130AAE.

Accordingly, due to its temporary silent status, K284CI is not currently rebroadcasting the signal of co-owned noncommercial educational parent station KUVO(FM) as indicated in the Rebroadcast Status certification item in this filing; however, when it resumes operation, K284CI will rebroadcast the HD2 signal of co-owned noncommercial educational station KUVO(FM).
