

Reason for Amendment Exhibit

Application File Number 0000127223 for a minor modification to FM Translator W229BX, Canton, Illinois, is being amended to change an incorrect proposed height of the center of radiation for the antenna that was in the original application filed on 11/24/2020. The original application incorrectly listed the height as 56 meters AGL (both horizontal and vertical). The actual proposed height is 78.2 meters AGL (both horizontal and vertical)(276.9 meters AMSL).
