

VCY AMERICA INC.
TECHNICAL CERTIFICATIONS

As the proposed assignee of KRCK-FM, KREV(FM), and KFRH(FM), VCY America, Inc. (“VCY”) is not in a position to certify whether the applicable facility was constructed (1) as authorized in its underlying construction permit and (2) in compliance with all special operating conditions, terms, and obligations described in its construction permit. Although these questions are not germane to VCY’s request to change the status of the stations from commercial to non-commercial educational, VCY responded “yes” because the form required a response in order to validate and file.
