

AMENDMENT TO REQUEST FOR TOLLING

A Request for Tolling was submitted earlier today, December 29, 2020 (LMS File No. 0000130180). In that application the proposed new construction deadline was inadvertently stated as March 1. The **correct** proposed construction deadline is **April 30, 2021**. The Exhibit Supporting Request for Tolling stated the date properly.

The purpose of the instant amendment is to show the correct deadline.

We apologize for this confusion.
