

## Exhibit

### Online Public Inspection File Certification

Cox Radio, LLC (“CMG”), licensee of the station that is the subject of the instant application (the “Station”), hereby certifies that except as described herein, the Station has timely placed in its online public inspection file all documents required to be placed in the file by 47 C.F.R. § 73.3526 and otherwise has complied with the Commission’s public inspection file requirements in all material respects.

On December 17, 2019, the license for the Station was transferred to the station’s current owner pursuant to a long form transfer of control application.<sup>1</sup> CMG notes that because of the long-form ownership change, the current owners are not liable for the violations of the prior licensee. However, out of an abundance of caution, CMG discloses that the previous licensee failed to timely upload two quarterly issues programs lists in 2016 and the 2017 annual EEO Public File Report.

CMG requires its stations to comply with all FCC rules, including the rules for the political public file. Nevertheless, while the Station has substantially complied with the political public file requirements, some documents were uploaded to the political public file outside of CMG’s requirement that all documents be uploaded within one business day, especially since the station public files were briefly unavailable during the pre-election period. CMG will continue to work with its stations to ensure that all political public file materials are uploaded in a timely manner.
